Instructions for Redeeming an Initial Audio License Purchased on WAProduction.com

1. After purchasing your license, visit your W. A. Production account page here.
2. In your **My Product Keys** section will be a redemption code for your new plugin. Click **View Product Key** on the plugin you purchased, then copy the code.
3. Next, visit InitialAudio.com/register
4. Paste the redemption code in the box on this page, then click **Submit Product Code**.
5. Fill out your personal information on the next page to create your account, then click **Complete Registration**.
6. Once done, click **My Downloads** from your account page.
7. Download the correct version of the product (Mac/Windows) and open the installer, then follow the steps to install the plugin.
8. Open your DAW of choice. Depending on your DAW, you may need to manually scan for new plugins in order for the plugin to appear.
9. Load your new plugin.
10. Click the **Activate Full Version** button in the plugin window.
11. Click the activation link that appears in the plugin window.
12. On the webpage that appears, fill in the information and click **Generate Serial**.
13. Copy the serial key that appears and paste it in the plugin window. Then click **Activate**.
14. Your plugin should now be activated.
